

R\D “AKADEMIK IOFFE”

Finnish-built for the Russian Academy of Science, this ship was designed to travel quietly, during hydro-acoustic research. The ship is exceptionally stable, yet maneuverable. External stabilizers and a built-in trimming system provide exceptional stability. *Akademik Ioffe* has an ice-strengthened hull and a cruising speed in open water of 14.5 knots. She carries a maximum of 109 guests.
